ROYAL VICTORIA THEATRE.

Sydney Morning Beralit. TUESDAY, NOVEMBER 1, 1853.

Sworn to no Master, of no Sect am I.

ENGLAND'S PELONS. CAMPBELL, a few months ago, " what am I to say to the Grand Jurors?" " To abolish transportation, without some immediate and rigid mode of punishment would be absurd," said Lord Sr. LEONARD. And Lords LYNDHURST and BROUGHAM joined in the regret that he Judges were in difficulty as to the abolition of transportation of convicts to Van Diemen's f.and.

These learned Lords seem to have been more anxious as to their difficulty in the matter, than to the more important moral question at issue in the expatriation of the felons, and the fearful consequence to the community amongst which they may happen to be cast.

Thanks to the ABERDEEN ministry,

the question of secondary punishments has been taken up with real earnestness and with much boldness. On the 9th of August, in the House of Commons, Lord PALMERSTON propounded the Government measure. The plan proposes to abolish transportation altogether, except in the case of the worst and most incor rigible criminals, who are to be sent to the penal settlement at Western Aus-The discipline a lopted at Portland, Pentonville, &c., will be generally pursued, - imprisonment being substipursued, — imprisonment being substi-tuted for transportation. "And in pro-portion as prisoners are found to have morally profited by this discipline they are to be indulged with tickets of leave at home, similar to those that are granted to well-conducted convicts in the colonies, viz., licenses to return to society upon condition that upon any abuse of the license, by new violations of the law, the convict shall be at once remitted to his former sentence." also said "that to render less difficult the

works for the liberated possessors of leave tickets." A London evening paper, in commenting upon the projected plan, declares it to be a bold experiment, and one which would be regarded with terror, had not proofs been afforded the last few years of the moral wonders effected by prison dis-cipline, where governors and chaplains of the right kind have been selected. Colonel JEBB's Prison Report for 1852 is then referred to, and the following ex-

is then referred to, and the following extracts made:

As regards the results of the discipline and industrial training at Portland, which, as before stated, has been more or les dependent upon the means of instruction afforded to the men during their probationary discipline in separate confinement, that they may, I trust, be considered to be highly satisfactory.

As a body, the men show a spirit of willing and cherful obedience. The strictest discipline is maintained, with a very small proportion of punishment. The industry of the working parties is remarkable; and the fact that they exact themselves at the laborious occupation is manifested by the circumstance that those who are employed, constituting only about four-fifths of the whole body, execute work of a value nearly equal to the entire cost work of a value nearly equal to the entire coal

of the establishment.

Of their moral condition the chaplain, and

of the establishment.

Of their moral condition the chaplain, and those who have the best opportunities of forming an opinion, speak in very favourable terms.

On the whole, though I felt very hopeful of success when Portland Prison was first occupied, the results have far exceeded my expectations; and, as I have frequently stated before, I would now repeat that, under Providence, it is due to the principle of a convergement held out in the rules and regulations sanctioned by the Secretary of State, and to the judicious and admirable manner in which they have been carried out by Captain Whitty, and the governors and chaplains, who have had the immediate responsibility of administering the discipline.

The foregoing observations will, I trust, have given your lordship a comprehensive view of the present system: and I trust it will also appear that, taken as a whole, it may claim to be founded upon broad and intelligible principles, and on past experience of much that has to be avoided, and much that affords encouragement to follow.

The prison at Portland is said to pay

The prison at Portland is said to pay its own expenses, and profits could be

realised if it was thought desirable to do so; the works carried on are works of mercy and national security. The same paper argues : " The experiment, so far as it has been carried, seems to prove in contestibly two things; first, that all but the very worst criminals are susceptible of reformation, permanent reformation, for the reports from the colonies speak most favourably of the conduct of such con victs as have been sent out from Penton. ville and Portland; secondly, we learn that this great process of reformation need not cost a farthing to the public; that, on the contrary, it can be turned to immense advantage, providing, as in case of Portland, such public works as could not be provided without it, and in no way deranging the labour market." The public may indeed hope to derive a great benefit from the application of the labour of convicts, while the benefit to the unhappy persons themselves must pass all calcula tion. It is, in our opinion, a great and unmixed public benefit, and one which will immortalise his Lordship. not of his school of politics, but we where his political errors do not mislead and, above all, we reverence that courage which is the basis of all that is good in the character of a statesman. give us courageous adversaries to rule us than cowardly friends to betray us.

pondent of the Melbourne Argus ob. serves-" I may state what it much concerns you to hear, viz., that after all I believe the Duke of Newcastle will not carry out the plan of sending convicts to Western Australia. He spoke in the Lords as though he was compelled to complete certain arrangements made by his predecessors, and would drop trans-portation even to Western Australia after the present year: but the Lord Chan-cellor treated the matter as though it were permanent. The Spectator in paper has made some remarks on the subject, but they are based on no official information. I can supply this deficiency from the highest source. A gentleman of influence from Melbourne has had an and met upon the occasion the Earl of Aberdeen, the Premier. Although mit ters seldom make pledges, sufficient fell from the latter to justify the impression that the Government will abandon transportation to Western Australia. It seems pitiful that when concessions are made to the colonies, they are not unreserved and graceful, and must ever be marred by some pettyfogging afterthought; and if, as Lord Aberdeen affirmed upon the occasion to which we allude, the transportation question was really very embarrassing and the law lords puzzle the Government by their conflicting opinions, why, one may ask, is not an fort made to establish a penal colony at the Falkland Islands, or some other equally remote place?"

THE CORPORATION OF THE CITY OF SYDNEY.

WE are glad to announce that yesterday were published, with the signification of the Royal Assent, three municipal mea-sures for the city of Sydney, namely, the Sydney Sewerage Bill, the Sydney Water Bill, and the Sydney Corporation Aboli-tion Bill, and these measures will, therefore, come into operation on the 1st of January next.

Although, therefore, the present City

Council will have time to wind up its affairs, and may continue to exercise its functions until the 31st December next, defacto it may be considered to be de-funct, and we are in future to look for a new system of Municipal Govern-

There are some rumours abroad that the retiring body will not leave their affairs in that correct state which might be wished for. So far from a balance being to the credit of the city, according to the best information we have been able to procure, a deficit is anticipated.

At all events, the citizens at large will be satisfied to have got rid of an incubus which has long heavily burdened the city, and exposed it to danger and nuisance entirely inconsistent with the progress of Municipal Government in the mother

Great allowance was made, and has for years been made, for the d transition from imprisonment to liberty, employment should be found on public ing all the circumstances of the times into consideration, similar allowance must be made for the Commission to be appointed by the Government.

Much will, doubtless, depend upon the experience and capacity of the gentlemen appointed, and whoever the successful candidates may be, a great deal of jealous disappointment will doubtless prevail.

But we are persuaded that the Govern ment feels too strong an interest in this matter-is too earnestly convinced of the responsibility attached to it not to strive carefully, to the best of its ability, to make the best selection open to it.

It is true, that whatever change takes place must be for the better; but this is not sufficient. Suffering so long as the City has been, the change now ought to be a change for the best.

Since the adjournment of the Council, t appears from official records, that the following acts have been assented to by his Excellency the Governor General on behalf of her Majesty:-October 21, Friendly Societies' Act, Sydney University Building Fund Act, Quarantine Act, Sydney Port and Hamlets Police Act, Insolvent Certificates' Act, New South Wales Coal and Inter-Colonial Steam Navigation Company's Act, Australian Subscription Library Act, Sydney Dry Dock Company Act, Newcastle Coal and Copper Company's Act; 29th October, Sydney Corporation Abolition Act; 31st October, Sydney Sewerage Act, Sydney Water Act, Water Police Regulation Act; 28th Uctober, Foreign Steam Navigation Act. Altogether there have been 37 public and 17 private Bills assented to, which leave only four Bills now to receive the Koyal sanction. namely, the Melbourne Sydney and Adelaide Chartered Bank Bill, the Appropriation Bill, the Burwood Tramroad Bill, and the Prohibition Amendment Bill.

NEW CALEDONIA.

THE French have taken possession of this beautiful group. On the 23rd of September the French war steamer Phoque arrived there from Tahiii. The vessel is understood to be under orders from the Commander-in-Chief of the South Pacific station. The John H. Millay. an American trading barque, which arrived in Port Jackson yesterday, has brought up two French officers; one of them an officer belonging the Administration, and the an officer belonging to nistration, and the other attached to the above French war steamer, for the purpose of purchasing supplies for the new French settlements. The American vessel which has been chartered for the purpose, and is only ten days from New Caledonia, will re-

turn immediately.

Her Majesty's ship Herald was at the Isle of Pines on the 28th of September, all well.

SOUTH AMERICA. By the arrival from Valparaiso we have files of Spanish papers to the 15th of August. From these we learn that the difficulties between Peru and Bolivia were still unsettled. The quarrel was principally owing to financial disputes of old standing between the two States. The mediation of Chili had been offered, but not accepted at the latest

The Diario discredits the report, having received in-telligence to the 21st, which mentioned nothing of the kind. The report also states that General Flores, commanding Unquiza's troops, had raised the siege of the city, and gone over to the Buenos

Ayreans. Postage stamps and pre-payment of letters had been established in Chili from the 1st July. The stamps bear the head of CHRISTOPHER COLUMBUS. A Spanish translation of "Uncle Tom's Cabin" was being printed at Val-

Althourne, and delay involved in an oversiand trip to the process of the daily increasing population attracted to these shores by the discovery of the gold fields. The number of sheep at present departuring on or near the Murray, beyond the South Australian boundary, and whose wood will now be shipped at our ports, is somewhere about 1,000,000. These will yield an immediate addition to our exports of \$500,000 lbs. of wool, valued at £200,000 shering. The country, however, is represented as being but very partially stocked, the distance from any market, and the difficulty of communicating with any of the capitals, operating as a veto, upon the location of stock in many of the districts. Runs will now be taken as where they are available, and a great increase in the cargo traffic will be the oursequence. The passenger traffic is also lifterly to be considerable, as steamers can approach within a short distance of the grintpal gold felds—the distance from Bendigo to the Marray being only 50 miles, Gestibears to miles, and the Overas 100 miles. The Goldburn is said to be navigable for a considerable passage by see, will doubtless induce seasy with themselves of it. To make the sew means of transit of great public utility, it is clear that more steamers will be required. These, we have no doubt, will follow it due course, and we shall have venezie announced to leave the Golow. Wellington, and Moorunde, for the digiting, as requirely as they are announced at Port Adelaide. The great problem of the possibility of narigating the Murray being solved the necessary arrangements for taking advantage of such a fact will soon be established.

True Darling is by water about 700 miles; from Adeliade by land nearly 300; and from Melbourne about 400 miles. The Darling is at present settled for 80 or 90 miles, reckoning by land. Of course by water the distance would be much greater. It is partly stocked with sheep and cattle, the number of the former being from forty to fishy thousand, but the country would carry at least four or five times as many. There is no scale, calterth, foot-rot, or other disease in the district. The food-rot, or other disease in the district the foods at present average from 10 or \$\frac{1}{2}\$ flow. Chicker.—A match has been made up between the Australian and the Marylebone Clubs, to come off on Monday, the 5th of next month. Heartrey Chillean.—Two girls, quite children, one indeed might almost with propriety be termed an infant, Mary Ann Doyle and Elion Brown, were found by a policeman in the streets at two oclock on Sunday morning, taken to the watch house for protection, and were yesterday brought before the Mayor in due course. It was stated that both girls had mothers in Sydney, but both were abandoned characters. The Mayor coincit the children to Mr. Dowling, to see if they were not fit subjects for the Asylam.

Accusar.—Between six and seven o'clock yesterday evening, Mr. Charles Bowler, of Hunter-street, was driving a powerful farry young chosen the best took fright and ran away with the gig. Bravus —About 10 o'clock on Saturday night, a man named Funnel died suddenly at his own house in Union Jame. He was walking about within a half hour of his death.—On Sunday moroling, James Donohae, about severtly years, and for some time past a resident at Newtown, was found dead in a clay hole at Newtown.—Yesterday morning, the body of a man named Gilligan was found on a well at Newtown. The well is said to belong to the Railway Company, and by some one was left uncovered on Saturday night.

ROMERL.—Some time between midnight on Sunday and three o'clock Monday morning, the premiess of Mr. Carron, Cook's River, were visited by theres, who stole from the stable two saddles, one bridle, with sundry articles of wearing apparel, and from the cellar three bottles of brandy and two bottles of whishey. PARRAMATTA.

STORITION INTELLIGENCE.

THE races, which were to have commenced on Wednesday were unavoidably put off until the following day, owing to the rain. Thursday, however, was favourable as the day advanced, and a small assemblage took place on the course, and the first race was proclaimed, namely, for the Parramatta Town Plate, of 40 sovereigns, with a sweepstakes of 5 sovereigns each ad-ed; for all hosses, to be handicap jed by the stewards, twice round and a distance; a second heat to be run for the sweepstakes; the winner of the first heat and distanced horses not allowed to start.

of the first neat and distanced norses not allowed to start.

Six horses were entered for the race, namely: Mr. Badgery's Seducer, which was ridden by Foard, eams in first; Mr. Tait's Black Diamond, second; Mr. W. Roberts's Vanguard, third: Mr. Cutts's Little John, fourth; Mr. Harris's Tiger, fifth; and Captain Fitzroy's Volunicer, which was distanced. The heat was run in 3 minutes and 35 seconds.—2nd heat: three horses started and came in as follows, viz.:—Tiger, first; Little John, second: and Vanguard, third. The second heat was run in 3 minutes and 37 seconds, and S.ducer, with little trouble, was declared to have won the prize.

little trouble, was declared to have won the prize.

BRCIND RACE.—The Ludies' Purse of 30 sovereigns, with a sweepstakes of 3 sove reigns each added, for all horses that never won over £30 of public money; weight for age; one event one-and-a-half nulle; the second horse to receive the sweepstakes. The following horses started for the prize, and came in as follows, namely—Back Diamond first, Mr. Moligneaux's Calendar second, and Mr. Roberta' Jack Sheppard third.

PRIDAY, SECOND DAY.

A hurry-scurry of 15 sovereigns, with a sweepstakes of two sovereigns each added; hests twice round the course; the winner to be sold by public au tion immediately after the race for £30, any surplus to go to the race fund. Two horses started, namely—Mr. Rutter's horse Tippler, who came in first, and Mr. Roberts' Uncle Tom second. The same horses started for the second heat, but at some four hundred yards from the starting post Uncle Tom fell, disencumbered himself of his rider, and left Tippler to canter round the course. This event appeared to round the course. This event appeared to wofully disappoint a large number of the money changers, who, as it was well understood, had arranged for Uncle Tom to win, and was just heading his opponent when the accident hap-

heats; Mr. Wallac-'s Tippler, third; and Mr. Roberts' Hannah, fourth.

ACODENY.—In starting for the second heat the horse Tippler was ridden by John Patrick, the driver of the White Rose commibus, and just after starting the horse fell, and rolled violently on to poor John, who laid apparently dead, and very much injured. He was conveyed in a rig by Mr. Taylor to the Australian Arms Hotel, and immediately met with Dr. Fox, of the lith Regiment, and Dr. a' Beckett, who examined Patrick and gave directions that another medical man should be sent for, as they had taken the coach for Sydney. It was discovered that the collar bone was broken and other ininjured, amost is preteriary dis-being of opinion to him in the thin in the juries in the che atteniance; bled the patient, and he is still confined to his bed.

The day was very fine, and a large attendance. The first race, the Grafton Stakes, a Welter handicap of fifty sovereigns, with a sweepstakes of tive sovereigns each added, for all horses to be handicapped by the stowards; one event; three times round; the sweepstakes to be divided between the second and third horses. Five horses started, and decided the event as follows, namely, Mr. Tait's Black Diamond first, Mr. Badgery's Seducer second, Mr. Harris's Tiger third, Mr. Roberts' Vanguard fourth, and Jack Sheppard, who was distanced. This was a good race, and betting ran high.

BECOND, MACE.—The Welter Stakes, of 30 sovereigns, for all horses carrying Welter weights; twice round the course; the winner of any Welter to carry 14lbs. extrs. Three horses were entered for this race, and came in as follows: Captain Fitz Roy's Volunteer first, Mr. Roberts's Jack Sheppard second, and Mr. Harris's Tiger was entered, but afterwards drawn.

We heard Mr. Holden give the hon-orary secretary and other parties who were entrusted with the disbursements some whole-some a tvice on the second day, and we think that public subscriptions collected for a specific purpose, namely, in sect two seconds.

sports for the people, should be legitimately spent.

A LUNATIC BOLTER.—On Wednesday evening last, during the rain and wind, John M'Gee, one of the lunatics at the Parramatta Asylum, minnaged to scale the wall of the establishment, eighteen feet high, and make his escape. Mr. Stathem, the superintradent, immediately mounted his horse, and rode in various directions, frequently getting on the track of the fugitive. On Friday, young M'Gee was apprehended by district constable Brown, of Prospect, in that locality, and after handeuffing and fetching him along the road, he, just before reaching town, sprang to a high fence, laid his two hands on and made a somerset over, ran violently pursued by the constable

fence, laid his two hands on and made a somer-set over, ran violently pursued by the constable, who came in reach sufficient to hamstring him with his stick. Mr. Drew of the Western Gate kindly assented to escort the lunatic to his destination, where he is again secured after many like attempts.

HALF-YHARLY INSPECTION.—Drs. Douglass, a Beckett, Fox, and Greenup, held the unual half-yearly inspection at the Parramata Lu-natic Asylum, when 263 patients were indi-vidually examined. The abovenamed gentle-men, at the close of the proceedings, which lasted three days, expressed themselves satis-fied with all the arrangements of the establish-ment.

lasted three days, expressed themselves satisfied with all the arrangements of the establishment.

INDEPENDENCE OF SERVANTS.—The Justices are almost daily engaged on the Bench with cases under the Hired Servants' Act. Mr. Rdwin Blaxland preferred a charge against his carpenter for absonding, drunkenness, insolence, and general bad conduct, to the injury by his example of the other servants. This case was clearly proved; and their Worships, Mr. Byrnes and Dr. Robison, Justices of the Pesce, sentenced the defendant to three months' imprisonment in Parramatta Gool.—Mr. Dunn, innkeeper, of George-surer, preferred a charge of abscending against his groom, who was apprehended by warrant. By the evidence it appeared that the defendant, Michael Crafton, in the temporary absence of his master, came to Mrs. Dunn, and said, "You can tell the core when he comes in that I am going for a day's apres." Mrs. D. replied, "Do you mean your master by the core?" "Yes;" and off struts Mick, leaving most important duties in connection with a stable of four horses to help themselves. Sentence, one month to gool.

Forsaken Child.—William Blake was apprehended by warrant, and brought before Mr. Forbes, P.M., and Mr. Byrnes, J.P.,

Forsaken Child of the boy, and the board of the boy and girl, the latter for whom police trooper Bennett was police as a condition of the boy and for Byrnes, J.P., charged with leaving his child unprovided for. It appeared from the evidence of Police Serient Baldeir that a little boy, aged almost six years, came to him for protection and food; that Blake, who had two children, had gone to service to Mr. Tait's in Sydney, and left a little boy and girl, the latter for whom police trooper Bennett was sent three years to the roads for assaulting a short time since. Blake said he was going to pay for the board of the boy where he had left him; but it was proved that nothing had been paid for the boy, and Mr. Byrnes personally knew that the woman where he was left, was not in a position to support the child. Their Workhips, therefore, made an order that Blake should pay seven-and-sixpence a week from the previous Monday.

DISTRICTS OF THE HUNTER.

DISTRICTS OF THE HINTER,

(From Saturday's Maitland Mercury.)

SINGLETON.—We have at length had a bountiful supply of the "latter rain," and it has caused a great change in the appearance of the growing crops. To the late wheat, especially, the rain has been very beneficial, and in some cases the forward wheat is fast recovering from its dry, withering, appearance. The rain commenced falling here on Sunday forenoon, and has continued with little intermission up to last night. Of course, our streets and roads are in a fine moddy state. From here to New Freught their road is described as "awfully bad,"—Small Debts Court.—Tuesday last was the day for holding the Small Debts Court at Singleton. There were but few cases for hearing, but the majority of them were set aside er postponed for the want of a second magistrate, the only J. P. in attendance being Mr. Gaggia. One party was present with his witnesses, who had to come a distance of fifteen miles, and complained to us that it was a hard case to have to had to come a distance of fifteen miles, and com-plained to us that it was a hard case to have to return as he came. Certainly it rained very heavy all day, and it is not likely that every gentlewan holding her Majesty a commission of the peace would like to "soak his clay" with heavenly deer; all they would get by it being perhaps a cold.

Muswellbuck.—We have been favoured with a very conjour, and continued rain since

Muswellshook.—We have been favoured with a very copious and continued rain since Sunday afternoon: the ground is completely saturated, and everything looks green and invigorated. The river is rising rapidly, and the roads have become very difficult to travel.—The late wheat crop, it is believed, will not be totally destroyed by the long drought, which the recent and present showers have at length providentially vanquished. It is still raining; and the face of nature having been so well washed, she will speedily be dressed in her most captivating attire.

Dunoou,—On Friday last, as Mr. and Mrs. Barker were crossing the street to their own

Mr. Barker rushed to the rescue of his wife, and made two or three fruitless attempts before he could get her loose. His distraction was such that he thought to cut the animal's throat with his pocket-knife before he could get her extricated from off his horns. At length the poor weman was taken off, and carried to her house, when it was discovered that the brute's horn had entered her stomach, and that a good deal of her intestines were protuding. Doctors Malion and Street were immediately in attendance, and under their able care. I am happy to say, the unfortunate woman is doing well. The Weather.—On Sunday evening it commenced raining, and up to noon this day hardly ceased. Yesterday evening the River William began to swell, and this morning had a dismal appearance upon many wheat fields in the immediate neighbourhood. At sundown it had falle four feet, and is fast going down. I have not

HANKS AND LLOYD.

HANKS AND LLOYD.

Original purveyors of the Concentrated TURKEY COFFER.

THIS Coffee has met with a remarkable, and rapidlly increasing sale. It is roasted upon a peculiar and improved principle, known only to the proprietors, ground immediately after it is roasted, and paoked in canisters to suit purchasers, of 3, 7, 11, and 16 lbs. each, impervious to air, by which means it remains uninjured by the atmosphere, and for a lengthened period retains in the highest degree its full fragrant freshness.

To country storekeepers and parties leaving for the diggings it will be found a great acquisition.

Australian Tea Mart, 367, George-street. HANKS AND LLOYD'S ADVERTISE.

HANKS AND LLOYD'S ADVERTISE
"AUSTRALIAN TEA MART."

"THE many difficulties and annoyances a stending the opening of an extensive establishment of this nature having been at length overcome, the proprietors feel it a duty they owe to the public and to themselves, to take advantage of the earliest opportunity afforded them of announcing the completion of their arrangements, and of being now in a position to do justice to orders of any extent or variety in the general provision trade, which, from the insufficiency of their storage arrangements at starting, and the difficulty of getting a sufficient number of first-class assistants for the counter trade, seriously impeded progress in the first few weeks of throwing open their establishment to the public.

The insight they have received during the last few months into the colonial style of conducting this branch of trade, has convinced the proprietors of the "Australian Tea Mart" that their wiser course will be to continue business in no other but the first-class London mode, in which an experience of twenty years in the metropolis of England has made them tolerably proficient. The colonial method is without doubt the most profitable course to the proprietors at present; Hanks and Lloyd think, however, in the rapid advance the colony is making, the public here can appreciate a good thing quite as well as in the mother country. They have determined therefore to conduct their business on the same principles as FORTNAM and MASON, Piccadilly HEBGES and BUTLERR, Regent-street PSITY and WOOD, King William-street and other first-class Italian Goods and Tea Warehouses in the City of London, with the sincers desire and anticipation that they will soon be able to rank equally high in public centination.

In the carrying out of their design of striving to count the product of their design of striving to count the country of their design of striving to count the country of their design of striving to count the country of their design of striving to count the country of their "AUSTRALIAN TEA MART."

HORSE POOD.

HORSE FOOD.

THE undersigned has purchased two cargoes of Chilian BARLBY, for feeding horses. This kind of barley is always used in Spain, South America, and California for horses and mules; they prefer it to maize, or any other grain. If the feed is steeped in the marning that is required at noon, the horses require little or no hay, and no maize at all—which is of consequence at present rates. 1*OR SALK, or to LET, the FITZ
ROY HOTEL, in the commercial town of Singleton, only 28 miles from Maitland, on the Great North Read. This beautiful house is two storeys high, built of brick, with stone foundation, contains a large cellar under ground, four spacious sitting and four bedrooms, with large hall on the ground floor; the front rooms and hall are furnished with mussive cornice and centres, and french lights, opening on to a fine wide verandah two sides of the house, 80 feet long; on the upper floor are seven bedrooms Detached kitchens, servanta' rooms, laundry sheds, and stabling for 30 horses, all, or nearly so, built of brick. Also, adjoining is a six room cottage, let to a good paying tenant, the whole standing on nearly an acre of land, with considerable space for building in two streets—George and John. It is a fact well known in the district that this property was built regardless of expense, and of the very best material, expressly for an hotel, and on the most commanding spot, at the only crossing place where everything must pass the door from and to the north and northwestern districts, and the rich northern gold fields. A good managing man would make a large fortune in this house in three years. Considerable sums have been made in the same house in bad times. Apply to the undersigned, at Islington. The produce of the various orchards on the river readily sells to the shipping at that port, and an enterprising man would soon acquire a competency by directing his energies to the cultivation of the soil, and the rearing of poultry for the Sydney market.

aned, the crops are greatly benefitted by abundant showers. Still some mild days abundant showers. Still some mild days uld be a great treat. At the moment I am would be a great treat. At the moment I am writing (half-past 2, r.w.), the thermometer is standing at 56 deg. Although spring is rather late in visiting us, there are yet signs of preparation for the approaching summer. From the 1st November the Reedy Creek diggings are to be thrown open to the public. Mr. Sproule's party of 14 have been working is this neighbourhood for some time with untiring real; and, although at times the water has proved almost too strong despite all their efforts to keep it under, they have yet laboured on. Their success is beginning to encourage them, and the proprietor (Mr. Maddrell) has determined to allow the public generally the privilege to dig for gold on his estate. He has appointed Mr J. Mackellar to act as his Private Commissioner—an appointment which we doubt mined to allow the public generally the privilege to dig for gold on his estate. He has sppointed Mr J. Mackellar to act as his Private
Commissioner—an appointment which we doubt
not will give universal satisfaction. At Spring
Creek, the British Australian Company have
taken out licenses and commenced preliminary
operations. At Little River, Mr. Barkel has
engaged a strong party who propose to try the
bed of the river, convinced that there will be
enough found there, to repay them for all the
toil that will be necessarily required. In the
old localities there is certainly improvement,
The number of licenses is rather more than
last month, and the success more general,
Some are indeed resping rich returns. The
Lucky Corner at Major's Creek still proves as
lucky as ever. Chariey's party did very well
last week; Jenner's, adjoining theirs, have
taken upwards of 100 ounces from one hole,
more than 30 having been washed out on Saturday. The gold still retains its coarse and
nuggety character. There has been a little
ruan to the Honeysuchle Flat, where some have
been working with every prospect of success.
Four men have taken out 14 ounces, in the
week. The gold is generally evry fine, resembling very much that found in the Flats on the
Seymour Setato. One little piece we lately
saw, weighing 34 grains, was a very pretty
specimen. Mesers. Sheppard and Alger's property, and that immediately adjoining, at
present worked by a company, are turning out
sufficiently remunerative to pay for all the
labour and money expended. The returns are
regular, and nothing has occurred to call for
especial notice. At Bell's Creek the large
parties are making very handsome profits;
even those who were so long unfortunate, have
now met with that "tide in the affairs, which
taken at the flood." may lead to forume.
About 100 persons are working at Araluen.
Thus I have run over our several gold fields,
and in all I find more or lees cause of enocuragement. It is certainly true, as is mentioned
in the gold circulars, that our esc late conveyed but very small quantities of gold to Sydney; but these must not be taken as the average of our week's returns. I know not why there has been so large a falling off, but from the quantity actually bought much more than 150 or 250 cunces ought to be weekly forwarded. It is very likely that some of our largest buyers are holding back, waiting for higher prices in Sydney. Gold is now selling at from 71s. to 72s.

In the prices in Sydney. Gold is now seiling at from 71s. to 72s.

I have heard with deep regret of two or three instances where persons have been maddened with liquor so that it has been necessary to put them under restraint. There is also at present in custody a woman named Lingard, on suspicion of having been guilty of the atrocious crime of murdering her own child. She was camping with her little one on the road to Braidwood, and says the child strayed away. As the infant was only 13 months old, and the bush has been thoroughly secured both by the police and blackfellows, there can be little doubt that the unnatural creature has murdered and secreted it. Her previous character has been bad, and the utter recklessness he displays affords atrong presumption of her guilt. Another sad instance of sudden death occurred last Monday week. A man named Freeman, for many years a resident at Berrima and Bong Bong, after taking his breakfast in his tent on Major's Creek, fell down and instantly expited.

With reference to the Reedy Creek diggings.

instantly expited.

With reference to the Reedy Creek diggings, I can speak of cour-e more definitely in a week or two. At present, I only remark that they will require pretty large parties, as the water is very strong; but that, undoubtedly, gold exists in paying quantities. There are all the indications of its being a rick field, and some tempting boulders seem to promise to some lucky once very rich returns. This is on the estate of the late Captain Coghill. By the way, some parties on our different gold-fields require to be reminded that these boulders and even many small stones may contain much that way, some partes on our anterest gold-near and even many small stones may contain much that is valuable, and would well repay for diligent scraping, &c. "What is worth doing at all is worth doing well," is a homely proverb which applies to gold digging as well as other occupations. A mining captain with whom I have been lately conversing, confirms me in the opinion I have often expressed, that the whole of Major's Creek would pay again for working from one end to the other, for much that is valuable is constantly lost. I am aware that in small claims this is almost unavoidable, and this proves one strong argument against the license-system, but even in other cases, the work is sometimes rather unsatisfactorily performed. We imagine the proof of this will be complete to all who may take the trouble to examine what is being done by the large parties under skilful superintendence, at present working in the creek. We shall revert to the matter from time to time, as circumstances the matter from time to time, as circumstances may arise to justify us in this our growing conviction. The old-fashioned cradles are, we are glad to see, gradually going out of vogue, though some are still using them. 27th. The infant to whom I have referred above, has been found drowned in a waterhole, three miles from the spot where her mother had camped. m time to time, as circ

amped.

A meeting, in reference to the Clyde Road, was held to-day, but under unfavourable circumstances as far as attendance was concerned; many persons being present at the inquest in reference to the child, whose mysterious disappearance has been mentioned above. The resolutions proposed I will give you in my next. There was no want of unanimity in the matter, and there is every prospect of something now being done. An able report was presented in reference to the practicability of the line. I must supply you with further particulars next week. The result of the inquest, that a verdict of wilful murder has been declared against the mother. Dr. Macalister conducted a post-mortem examination on the body of the unfortunate infant, and pronounced his orinion that—wounds and bruises found on the brain were of themselves sufficient to have caused death.

Sin,—In reference to a parsgraph in this day's paper, signed W. H., requesting to know the possibility of obtaining the value of nuggets and gold, containing quartz, from their specific gravity,—I beg to inform you that the operation is not only practicable, but exceedingly casy, and a fact well known to every chemiat.

MALCOM'S ROYAL AUSTRALIAN AMPHITHEATRE, YORK-STREET, SYDNEY.
Day of Sale, TUESDAY, the 1st November, 18 R. A. POLACK has received interested interested in the splendid and PRINCELY FORTUNE, to submit to public competition, the interested lease for seven years of that magnificent Pile of Buildings, known as MALCOM'S ROYAL AUSTRALIAN AMPHITHEATRE, together with the ADELPHI HOTEL, situate in YORK-STREET, SYDNEY, between KING and MARKETS STREETS, and in the immediate vicinity of the GEORGE-STREET MARKETS, THE TOWN HALL, and the central POLICE OFFICE, to submit them to public competition, at his Auction Rooms, Pitt-street, Sydney, THIS DAY, the 1st of November, at eleven o'clock, 25 Mr. A. Polack, in inviting the attention of capitalists to this splendid property, deems it unnecessary to enter into a detailed description of the same, it being familier to the Sydney public asone of their most favourite and fashionable places of resort. With these preliminary observations the Auctioneer wil content himselt—simply classing the several departments in the order subjoined.

The stage d-partment, the scenery, dresses, and decorations are appropriately got up; the INVERNO QUARTER-ACRE ALIOT.

interior of the Theatre is handsomely fitted up with a neat circle of dress and private boxes, with a spacious pit. In the front of the Adelphi Hotel is a spacious entrance to the lower and upper boxes, as well as a private entrance to the private boxes, enclosed by a pair of gates, the entrance leading to the boxes being divided for each portion of the visitors.

The interior of the house is arranged with three circles of boxes, with several private and family boxes; an entrance pit, with raised seats. To the circle of boxes is attached an elegant Dress Salson.

The size of the Amphitheatre is 54 feet by 39 feet.

all parts of the house have communications for escape.

The Adelphi Hotel consists of a bar, parlour, sitting room, hall, two large dining-rooms, stables, kitchen, and numerous bedrooms, &c., &c., &c.

Title—a grant from the Crown direct.

RIVER; and on the north by George's River to the aforesaid marked OAK TREE.

Title—a grant from the Crown direct.

This property is in the immediate neighbourhood of the properties of Messes. Rowiey, Spencer, Lycock, Gordon, Williama, &c., with a very large frontage to George's River and Mill Creek.

This property has, amongst other advantages, abundance of grass and water in all seasons of the year, and the soil is described as good, open, and profitable forest land.

Also, that the coal vein from Newcastle to Bulli must run very near, if not under these very 43½ acres of Land now submitted for sale. Persons, therefore, who are looking out for coal fields should secure this snug little property, fronted as it is by the navigable waters of George's River, and to which spot vessels heavily laden can at all times go alongside.

A plan on view at the Rooms of the Auctioneer.

THE PICK OF THE RILEY ESTATE.

MR. A. POLACK will sell by public auction, THIS DAY, the let November, at 11 o'clock, at the Long Room, Russell's Hôtel, Pitt-street, The best Building Allotment on the Riley Estate, having a frontage of 32 feet to CROWN-STREET, by a depth of 78 feet 3 inches.

to CROWN-SIRERI, by a depth of 78 feet 3 inches.

Any person prevented from the last sale from securing a first-rate building piece of ground in the heart of the city, and a frontage to the greatest thoroughfare on the Surry Hills, commanding an elevation looking over the whole of Sydney and its hamlets, coves, harbours, and bays, has now an opportunity of doing so; for the allotment of building ground now under offer to the public has always been considered as the most choice one of the RILEY ESTATE, and is within a few minutes' walk of the Post Office and other public institutions. A more favoured spot could not be selected for the formation of a city residence, or for the erection of a number of houses which would readity let to respectable tenants. able tenants.

Mr. A. P. hopes it will not be considered presumptuous in him to recommend the above to the public, as he is in his own mind perfectly confident that never has such an opportunity like the present presented itself, either for the purchase of a homestead, or for the laying out of NURSERY GROUNDS, as the quality of the soil is such that little, if any, trouble or expense would be required to make this by far the most fertile of any in the colony.

MR. A. POLACK will sell by auction, THIS DAY, 1st November, at 11 c'clock, at the Long Room, Russell's Hotel, (16) SIXTEEN QUARTER-ACRE ALLOT-

the whole block, comprising upwards of FOUR ACRES, will be submitted in ONE LOT, and may be purchased by private contract previous to the day of sale, on application to the Auctioneer, at his Offices in Hunter-street.

These allotments comprise a portion of Gambling's grant called TOOTHILL, on Long Core Creek, by which, and the Canterbury road, it is bounded. The distance of these allotments from the boundary of the city of Sydney is three miles, and from the Parramate road 60 roads. The railway runs close alongside, and the great terminus will not be five minutes' walk from the allotments.

The property possesses many advantages. The creek first enters on this position, and has its banks particularly adapted for reserving by a very trifing expense of damming, an immense supply of water, suitable for the purposes of a Steam Flour Mill. Water Mill, or Woolwashing establishment, ac., &c.,—for this latter purpose it would be admirably adapted. There is also a quarry of superior building stone on the property.

A plan is en view at the rooms of the suctioneer, and the title can be examined on repersone to C. H. Chambers, Esq., Solicitor, 316, Pitt-street.

To DRUGGISTS and Others.—A cure for all.

ALLOTMENT OF LAND.

Day of Sale, TUESDAY, 1st November.

M. R. MORT has received instructions to sell by public auction, at his Rooms, Pitt-street, THIS DAY, the 1st November, at 11 o'clock,

A CAPITAL ALLOTMENT OF LAND, situate at NEWCASTLE, having a frontage of 66 feet to Watt-street, by a depth of 150 feet.

This allotment is about 100 yards from the Queen's Wharf, and is well situated for business purposes. It was formerly the property of the Australian Agricultural Company, and is in the immediate vicinity of the proposed Railway Terminus, which will impart a high value to the property. The site cannot be surpassed for the erection of extensive stores and warehouses, which would ensure a rapid fortune so soom as the Railway Company commence operations, and our intercourse with the Hunter assumes so entirely different a feature.

ment. The House centains 13 rooms, together with Coachhouse, Stables, and other out-offices.

The Garden contains about 3 acres, well stocked with choice fruit trees and under cultivation. It is enclosed with a paling fence, and is well drained.

The Paddock adjoining is well grassed, enclosed with a substantial three-rail fence, and contains about 5 acres.

The whole is well watered, and the supply has never failed in the driest season.

Plan on view at the Rooms.

This property is well situated, at a most convenient distance from Sydney. It is in the vicinity of the beautiful estate at Nelson's Bay so well known as the late property of Robert Lowe, Hsq. The views from the house are first-rate, embracing a vast expanse of land-scape scenery; with the boundles ocean on one side and the splendid harbour with its ever changing aspect on the other. The situation is healthy, and the neighbourhood respectable, and the whole offers a good investment for capital, or a convenient and comfortable residence for a large family.

These cattle are first rate, being bre? from imported bulls, which have been only recently removed, and there are a lot of splendid young bulls on the station, only just purchased, and eady to be put into the herd. It is important to observe that nearly the whole of the herd are syown cattle.

bulls on the station, only just purchased, and eady to be put into the herd. It is important to observe that nearly the whole of the herd are grown cattle.

The station is situated in the Moreton Bay district, about 60 miles from Ipswich, and 75 from Brisbane, and may be put down as one of the finest in that favoured district. It is held under an eight years' lease, and is 22 miles long by about 10 or 12 broad, with natural boundaries almost impassable, rendering it one of the most compact stations in the northern district. It is well watered by six large creeks, as well as numerous tributaries and lagoons, and is capable of fattening 8000 head of cattle, and has a natural boundary in the centre, which renders it easy of division into two good stations.

THE IMPROVEMENTS comprise the following buildings, &c., which are finished in a very superior manner, and well adapted for a respectable family, being in a capital neighbourhood, the run adjoining those of Messrs. McConnell, Bigge, Balfour, &c.

DWBLLING HOUSE, containing seven rooms, BIORES AND MEAT STORE, THREE-STALL STABLE AND HORSE BOX, TWO MEN'S HUT'd, Weaning Paddocks, fenced in five miles round, with Stock-yard for 900 head, and fitted with branding lane, milk bails, &c.

A Mustering Paddock, three miles round, with large Stockyard to hold 4000 head, and with the paddock 10,000 head could be mustered and drafted without difficulty or inconvenience, the yard being fitted with drafting yards, lane, gates, and every convenience.

LARGE HORSE PADDOCK, 2 Cultivation Paddocks, and One small spare Paddock. The following are the improvements at Strathbran, six miles from the head station Stockmen's Hut, large Stockyard, Three stall Stable, Horse Paddock, Tailing Yards.

The HORSE STOCK consists of the following:—

18 hacks and stock horses,

2 three-yeaf old coles.

The HORSE STOCK consists of the following:

Is hacks and stock horses, 2 three-year old coles, which has been in the market for some time past, the breed of the stock being highly superior, the proportion of bullocks and grown cattle unusually large, whilst the fattening eapablities of the run are fully equal to more than double the quantity of stock to be sold with it.

It may be well to mention, also, that the improvements are most substantial and complete, and from the adaptation of the Cottage for the reception of a family, a most comfortable home is ensured. The climate is very fine, the country most picturesque, the distance from neighbours and the head of navigation comparatively trifling; indeed, as a whole, it is a truly desirable and most complete property, and worthy of all commendation.

The returns from this station have been very large indeed, and looking to the increasing value of cattle in the southern markets, it is almost impossible to anticipate the profits which may be obtained from it for the full that the profits which may be obtained from it for the full that the profits which has been in the southern mark
